## PLEASE READ!

Hello, nice to meet you, I'm Sirelo and I'm translating this manga into english, of course this wouldn't be possible without "Quiero volver fujoshi a mi mejor amiga" fansub consist, thanks to them I'm able to translate this story.

As you can see, this was firstly translated into spanish, I'm just doing the work of getting it into english... I'm kidding, but yeah, I'm ashamed of it. I think it's really necessary for me to say that english is far away to be my mother language so if you see a mistake please don't hesitate to tell me, I'm still learning and though it's not a complicated manga with very complicated dialogues, and was proofreading a friend of mine, I'm very insecure so I'm afraid of mistakes.

I hope you enjoy it, I never in my life thought about being doing this, but when I read this manga a couple of months ago I was hesitating into translate it or not and when I saw the kocusu version I say "screw it, I'm translating the manga!" and here I am. Typesetting is hell so I almost gave up but, I'm happy that I didn't.

Nothing more to say but to thank "Quiero volver fujoshi a mi mejor amiga" fansub to give me the permission to use their news and translations and of course, all the credits for them!

Also, if you're part of a fansub and this manga is in your future projects, please don't doubt and tell me! If that the case, I'm gonna stop translating it. I respect your work and don't want to have any troubles with you, precious beings.

Thank you again, for reading!
